Days

Repose continues to strengthen their partnership working with key suppliers and distributors to design new and innovative seating solutions to meet their customer's needs. Always at the cutting edge, they provide flexible and adaptable products, having been responsible for driving market trends such as the Multi Range of chairs with interchangeable pressure seating and back cushions combined with the versatility of their manual and rise recline solutions.

The Madison, is one of the state-of-the-art chairs that offers:

- Dual Multi Tilt in Space, to allow for changing positioning needs throughout the day
- Back cushions that can be interchanged with different styles, allowing the chair to be adapted as a user's conditions change or for entirely different users
- Flexible seat depth for multi resident use
- Easy to move and porter
- Seat cushions that can be changed to meet customer's individual pressure care needs.

The Repose journey continues as they work with OT, Kate Sheehan, to develop additional seating products aimed at specialist conditions such as Huntingtons. For more details on this, the Madison or any of the range you can visit them at Trade Days on stand TE110.
