# Commitment

We have a strategic plan for the controlled growth of the company, one that looks to continually invest in people, processes, equipment, technology and most importantly our clients.

For Repose it's about developing lasting relationships that are mutually beneficial and to deliver high quality services and products at affordable prices.

Over the past three years the company has grown at 20% per annum and annual sales of chairs now exceeds 8000 with a significant proportion being health seating.

# Partnership

We have invested significantly in our clients' journey.

We fully appreciate the value of our client base and the pivotal role that they play in our long-term success.

We consider them as partners where our ability to provide the right level of support services tailored to their requirements, as well as exceptional products, will help them to grow their businesses.

# Handcrafted

All of our team are driven by the little things that matter. Growing from a business expert in traditional handcrafted and bespoke furniture, we still pride ourselves on our hand-made approach to all of our rise recliners, complementary furniture and health furniture.

We thrive on the attention to detail.
